# Booking Appointments- Scholarship program

“Do you have a second?”

“The reason I’m calling is I was hoping you could help me out”

Recently I applied for a summer scholarship program with a public adjustment company

Part of the scholarship is to learn how to do presentations and review insurance policies while sharing who can benefit from a public adjuster.

Keep in Mind I have absolutely nothing to sell and there is nothing to buy, I simply get paid for doing each presentation

I'm calling to ask if you would allow me and my program manager to do a presentation with you. Can I count on your support?

WHEN would be best for you, \_\_\_\_\_ or \_\_\_\_\_? Great

Please be sure to have your declarations page available. (not the entire policy)
