

1 Technology That Produces 7 Different pH Waters

To enhance your body, life & environment

Licensed Medical
Device Used In
Japanese Hospitals
Since 1974

2.5_{pH}

(EOW) Electrolysed Oxidising Water
Eco Friendly, non toxic and natural.
Anti-Bacterial, Anti-Microbial,
Anti-Fungal. Effective Against
e-coli, salmonella, tuberculosis,
staphylococcus, MRSA

Benefits & Uses

Removes protein based spills

Excellent disinfecting power that helps prevent
food poisoning. Use it to clean & sterilise your produce,
meat, cookware, cutting boards etc

To disinfect your hands, chairs, nappy changing areas, toothbrushes.
Gargle for sore throat, mouth wash, dental infections, bad breath & cavities

Use for skin conditions such as Psoriasis, Eczema, Dermatitis, Acne
& Burns. Soak, spray or wrap nail fungus, athlete's foot, moles, warts
cuts & scrapes, cold sores, canker sores, eye infections,
insect bites / stings etc

Strong Acidic Water
(not suitable for drinking)

**Eco Friendly
Non Toxic
Hypoallergenic
& Natural**

11.5_{pH}

Eco Friendly Water
(not suitable for drinking)

Benefits & Uses

Removes oil based spills or stains

Cleans like soap without leaving soap residue & restores a bright finish
Use for washing clothes (reduces the need for laundry detergent)
Soak fruit and vegetables 5-7 mins to clean, revitalise & increase shelf life
For best results soak fish, chicken, steaks for 5-7 mins in 2.5pH water first
then followed by 11.5. You will be amazed at the difference in the taste

A very effective anti-inflammatory which may reduce pain & swelling.
Apply externally to affected area for 20-30 mins, 2-3 times a day
e.g. for arthritis, strains, sprains, sore muscles, insect bites/stings,
psoriasis, eczema, dermatitis & acne
Refill & use both 2.5 & 11.5pH waters within 5 - 7 days for best results

8.5_{pH} - 9.5_{pH}

(ERW) Electrolysed Reduced Water

8.5, 9.0 and 9.5pH ERW Water Improves
the taste of your drinking water and food

Benefits & Uses

Superior Hydration & Energy with Ionised, electron, oxygen rich water
Full of Anti-Oxidants which help to slow down aging & degeneration
For Athletes - Increased performance & faster recovery time.
Helps to flush out lactic acid quicker than any other liquid
Alkaline - This water helps to reduce acidity in the body caused by tap water,
bottled water, fizzy drinks, excess meat, dairy products, processed foods,
stress and exercise
Micro-Clustered - Allows greater penetration and easier absorption to cells for
delivery of nutrients and hydration necessary for optimal health
With Coffee and Tea - Water boils much quicker. Pulls out more flavour which
means a fuller, richer taste every time. You will also be amazed at the colour!
When making Soups and Stews (reduces cooking time), ERW Water draws
out the flavour of the ingredients so your dish turns out tender and juicy.
You will need less seasoning so you can reduce your salt intake.
In cooking rice Use ERW Water to wash and cook rice. It will make it
delicious & fluffy

MOST IMPORTANT

ERW Water is best
consumed within 24-36h
After this time,
its energetic & health
properties drop.

6.0_{pH}

Beauty Water
For Skin & Hair

Benefits & Uses

Detangles & Conditions Hair - Use as a natural anti-frizz
for smooth & shiny hair without having to apply harmful chemicals
Toning Your Skin - This pH water is especially effective in toning your skin.
It helps to refresh & hydrate your skin & hair after a hot shower or bath
& also prevents dry skin & scalp
For Best Results - Apply to face, hair & skin at regular intervals during the day
& leave to dry naturally. You will see & feel the difference within 2 to 3 days
There is also a shower unit which produces **6.0pH Beauty Water** for your bath
& shower. To learn more about this technology ask the person who shared
this information with you to provide the video and PDF on this

**Eco Friendly
Non Toxic
Hypoallergenic
& Natural**

7.0_{pH}

Clean Water
(suitable for drinking)

Use 7.0pH Clean Water to take medication
& make baby formula
The three-layered, high powered water filter
removes not only chlorine but also matters
such as lead, sediment, effluvium, rust &
impurities yet still keeps the essential minerals

How To Calculate How Much Water You Should Be Drinking

A healthy adult needs around 35ml of water each day per
kilogram of body weight. A person weighing 50kg requires
1.7 litres, 60kg - 2.1 litres, 70kg - 2.4 litres and 80kg - 2.8 litres.
The rule of thumb: the more you weigh, the more water you need

To learn more, ask one of our team leaders to share
more videos and documents with you on the many
benefits this water technology has to offer
